Ter Weer is a fencing club with a long history (from 1939).

Today we are a club for everybody, some of our members have been fencing for years and others have begun only recently. All ages are welcome, with a minimum of 7 years. The atmosphere is relaxed and everybody is free to

train as hard as he/she likes. Every level has his own weekly class, and for the more ambitious fencers there are individual lessons ("JOP" program). Experienced fencers train with electrical equipment or will be guided by training programs. We fence on foil, the most commonly used weapon and it demands the highest technical level. Because this weapon is light, it's also a perfect "starters"-weapon. In short: quality for all.
